Bibliographic Research Workshop - Polo Scienze della Natura 2019

General meeting

1. Catalogs, tools and services for bibliographic research
2. Digital bibliographic resources. Rights and duties of users
3. Other tools for bibliographic research
4. Research strategies, evaluation of sources and results
5. How to quote and quotation styles. Useful software to manage bibliographic citations
6. Bibliometric indexes and citational databases
7. Resources for research (administrative support)
8. ORCID e Research Gate

Specialized meeting for the research area in psychology

1. Evaluation of psychology research through the use of WOS and Scopus (bibliometry) and bibliometric indexes (IF, H-Index) citational databases
2. Iter and traps of scientific publication
3. Specialized databases (PsycInfo, Mental Measurements Yearbook, PubMed)
4. Outline of Open Access
5. Exercise: the participants will carry out a research using some analyzed tools.

Specialized meeting for the research area in chemistry, pharmacy and earth sciences, life sciences

1. Evaluation of research in "hard sciences" through the use of WOS and Scopus (bibliometry) and bibliometric indexes (IF, H-Index) citational databases
2. Iter and traps of scientific publication
3. Specialized databases (SciFinder, Reaxys, Pubmed)
4. Outline of Open Access
5. Exercise: the participants will carry out a research using some analyzed tools.

Specialized meeting for the research area in mathematics, physics, computer science

1. Evaluation of research in mathematics, physics and information technology through the use of WOS and Scopus citations (bibliometry) and bibliometric indexes (IF, H-Index)
2. Iter and traps of scientific publication
4. Outline of Open Access
5. Exercise: the participants will carry out a research using some analyzed tools.
